

# Radio Twickenham

**Twickenham Academy, a secondary school in South West London is starting their own Radio Station in the coming months.**

Shahrukh Khan, a Year 10 student thought up the idea in a school conference.

“We needed a big, good idea for the school.” says Shahrukh. “I want to use it to broadcast around the school and around the world.”

When asked what he would play on his radio show, he responded, “I want to use it to spread information around the school.”

Sophie Long, a Year 7 student, told us, “I think the Radio Station is a really good idea. It will really brighten up the school day.” A lot of the students share Sophie’s enthusiasm.

But will Radio Twickenham be a success? Only time will tell, as the station is going to be set up |

In June this year. Look out for developments in this exciting new project!
